QUALITY POLICY CHAKRAY CONSULTING S.L.

Chakray is a business entity that focuses its activity on business development with the use of WSO2 technology.

For Chakray, it is a priority to orient its management towards the quality of the end customer aided by the guidelines set by international standards. As a continuous improvement in our organization's projects, Chakray aims to improve internal work management and reaffirms its competitive position within the market segment where it develops its activity.

In our eager to obtain a higher quality in our products and services and thus achieve an improvement in the competitiveness of the company, in Chakray we have set ourselves the following objectives to achieve:

- Ensure the continuous improvement of the work teams, improving the commitment with customers and working to increase the quality in the projects carried out and the training of the team involved in the project.
- Comply with all the requirements and requirements requested by our clients, as well as those requirements of a legal type, in particular in the field of quality with customers and other requirements that the company deems as necessary.
- Ensure the satisfaction of our customers always based on a correct treatment and an extra effort in the execution of our services.
- Achieve a high degree of competitiveness in our market based on the trust and loyalty of our customers.
- This policy is communicated inside and outside our organization and is subject to periodic review.

This Quality Policy is a frame of reference in the annual establishment of the Company's strategic objectives.
